Ignite Funding facilitates the role of Default Coordinator when a borrower defaults on a loan, and the property needs to be taken back through foreclosure or a Deed in Lieu of Foreclosure. Upon completion of a foreclosure or execution of a Deed in Lieu of Foreclosure the investors transition from a Lender to an Owner of a Real Estate Owned (REO) asset. Likewise Ignite Funding's role changes from Loan Servicer to Asset Manager for the property. In this role, Ignite Funding coordinates ownership responsibilities on behalf of the investors and markets the asset for sale.

Our top priority is protecting our investors principal investment. We take great pride in the assets we underwrite and offer as investments. We also recognize the risk of the investment and the trust our investors place in us when a borrower goes into default.

Ignite Funding stands by its investors throughout the entire investment process and when a default occurs, we move quickly to protect the investment and our investors capital. Ignite Funding takes the following steps on behalf of investors:

- STEP ONE:** Ignite Funding may (at its discretion) pay the costs to take back a property, to be repaid upon the sale of the property.
- STEP TWO:** Internal and external property marketing.
- STEP THREE:** Negotiate property sale price and/or joint venture agreements.
- STEP FOUR:** Keep investors informed through property updates and proposal communications.
- STEP FIVE:** Ignite Funding may (at its discretion) pay the carrying costs on the property, to be repaid upon the sale of the property.

These costs continue to rise each month that the property remains unsold. Currently, Ignite Funding is considering all options available for disposition of the property, up to and including auctioning the property. 9.2.22 - Ignite Funding continues to work with the city to finalize the bond in order to receive the final recorded map. Upon issuance of the recorded map, Ignite Funding expects to put the property under contract with a buyer. The anticipated buyer is one that Ignite has previously worked with and who has successfully closed on other properties with Ignite. We anticipate that there may be a deficiency between the remaining principal balance due on the loan and the sales price, but that cannot be determined until the property is under contract and an amount has been established. If there is a deficiency, Ignite Funding will pursue a deficiency judgment against the guarantors through the courts. As with any legal action, this will take some time and we cannot know what the end result will be.
